

The District Court for the District of Oregon uses eJuror, an electronic jury management system, to allow individuals who receive a jury summons to complete the necessary paperwork online. Prospective jurors may request a deferral, fill out required preliminary questionnaires, and check the status of a scheduled jury call.

***To access the eJuror system, please ensure that you have the summons or questionnaire that you received from the District Court. The participant number listed on the summons or questionnaire will serve as part of your login credentials.***
